Portfolio: yagavan222008-dotcom.github.io/portfolio

SKILLS

Languages: Python, C, SQL, Java (learning)
Backend: FastAPI, REST APIs
Frontend: HTML, CSS, JavaScript, Next.js
Databases: PostgreSQL, SQL , Supabase, Neo4j
Tools: Git, GitHub, Docker,PowerBI
Languages: Tamil,
English,
Hindi(writing).

CERTIFICATIONS

- Generative AI Mastermind – Outskill
- NPTEL Python for Data Science
- AWS CLOUD Practitioner Essentials
- Statistics OnrampCybersecurity and Cloud
- Fundamentals 1.0 (NSE 1) Introduction to Next
- Generation Firewall 1.0(NSE 2) Python Fundamentals

CAREER INTEREST

Artificial Intelligence, Backend Development, Data Science, Machine Learning, Database Management, Predictive Analytics, and Data-Driven Application Development.

SUMMARY

Second-year Artificial Intelligence and Data Science student at KPRIET, passionate about backend engineering, database systems, and practical AI/ML applications. Skilled in Python, FastAPI, PostgreSQL, and SQL, with an interest in building reliable, scalable solutions through clean APIs, structured data, and problem-solving projects.

PROJECTS

- **NEXUS – AI-Powered Campus Intelligence System:** Python and AI/ML solution to improve campus operations and student experience; KPRIET-approved and seed funded.
- **SMART ERM – Smart Emergency Room Manager:** Full-stack ER scheduling simulation with a Binary Min-Heap triage queue, Hash Table and FastAPI; 23/23 tests passed.
- **QUANTEXA – Financial Intelligence & Backtesting:** Next.js and FastAPI platform with SMA/EMA, Sharpe ratio, drawdown and strategy backtesting against Buy & Hold.
- **Billing Automation System:** Developed a billing application to streamline invoice creation, customer data management, and billing operations, featuring PDF/DOCX invoice generation.

INTERNSHIP

Data Analyst Intern **Thiranex** 2 June – 3 July:

- Gained practical exposure to data analysis, working with datasets to identify trends and generate meaningful insights.

ACHIEVEMENTS

- **Institutional seed funding** from KPRIET for the NEXUS Campus Intelligence project.
- SIH 2026 – Selected in internal round with AICTE SmartFlow.
- Startup Ideathon 3.0 orgainzed by Coimbatore Institute Of Technology **Winners of cash amount of 5,000**.
- QUANTEXA 24-Hrs Hackathon – Team TECH_INNOVATORS.
- HACKNEX 24-Hrs Hackathon - Participated

LEADERSHIP

- Led a 5-member team for the CAMPUS INNOVATION-won seed fund
- Led a 3-member team for the QUAANTEXA 24hrs Hackathon
- Led a 3-member team for the HACKNEX 24hrs Hackathon
